The Practice Plan

www.learnguitarwithcharlie.com

What do you want to achieve?

How are you going to do this?

Are you going to give yourself a timeframe to achieve your goal? if so, how long?

How are you going to measure your success?

What is your motivation for working towards this goal, and when you lack motivation, how are you going to find it?

Identify the things that you think you are going to find difficult during this process.
